

Easy install. Easily used.

iMediaCast

Connect mobile devices to the TV.

Connection options for most devices.

iMediaCast offers an innovative, affordable way to upgrade hotel in-room entertainment offerings which enables guests to effortlessly mirror and stream content from their mobile devices to the in-room TV.

iMediaCast is intuitive and comes with three wired-connection options, which supports most mobile devices along with a wireless connectivity module that supports Miracast and Airplay.

It also supports two kinds of charging solutions for the mobile devices: wired and wireless.

It connects easily to the existing TV's HDMI port and does not require network or TV upgrades. Guests can access content using their own LTE or 3/4G network or be given access the hotel's Wi-Fi network.

Wired and Wireless Quick Charging
